Pairing a frosted privacy glass sidelite with a silkscreen design will work; however, they will not match exactly.

Frosted areas of silk screen glass have a privacy rating of 9.

PRIVACY GLASS

Privacy glass ensures a high level of obscurement but allows soft light to filter in and illuminate a space.

These photos were taken with objects directly behind the privacy glass in a well-lit space. Actual privacy levels will vary depending on your distance from the glass and the amount of light in the room in comparison to the light outside your home.

For extra privacy, contact customer service to add an extra pane of privacy glass to your door or window order.

Double privacy glass is an option for SDP doors and this is set up in entryLINK.

* Mistify privacy glass only available on select door styles.
See entryLINK for details.
